

Get introduced to 'state-of-the-art' developments and emerging applications of Biotechnology and Nanobiotechnology

2-day Workshop on

# Nano-and Biotechnology: Innovation and Revolution!

Organised by **Ramnarain Ruia College**  
in collaboration with **Harrisburg University, Pennsylvania, USA**

**Biotechnology** is called the 'Science of Millennium' due to its interdisciplinary nature and diverse applications in a variety of fields such as medicine, food and agriculture, and environment.

**Nanobiotechnology** is a relatively new field of science dealing with structures at nanoscale. Because of small size, nanomaterials offer unique advantages such as resource conservation, reduction in waste generation, and customization of novel properties. Nanotechnology has tremendous potential towards offering unique and customized technologies for multiple industries including pharmaceutical, healthcare, energy, and waste management.

## About Ramnarain Ruia College:

Shikshana Prasarak Mandali's, Ramnarain Ruia College of Arts & Science was accorded a score of 3.65 under NAAC reaccreditation in 2012; was the first college in the country to be selected as a College of Excellence by UGC and also the first college in Maharashtra to be selected as a College with Star Status by Department of Biotechnology, Govt of India.

Our Vision – To emerge as a center of higher learning and innovative research to meet the challenges of a global society  
Our mission- To foster global competence and support career building of students by organizing various courses, workshops, events, competitions.

## Target Audience:

Educators looking for professional development opportunities

**Workshop Dates:**  
14<sup>th</sup> – 15<sup>th</sup> July, 2017

## About Harrisburg University of Science and Technology:

The Harrisburg University of Science and Technology offers innovative academic and research programs in science and technology that respond to local and global needs. The institution fosters a diverse community of learners, provides access and support to students who want to pursue a career in science and technology, and supports business creation and economic development.

## Expert Coach: Dr. Mrunalini V Pattarkine

*Professor of Biotechnology at the Harrisburg University of Science and Technology, Pennsylvania,  
Director of Capital Area Biotechnology Partnership (CABP)*
